

ISO 14001 is an internationally recognized standard for **environmental management systems (EMS)**. It provides a framework that organizations can follow to improve their **environmental performance** through more efficient use of resources and reduction of waste.

Helps organizations minimize how their operations negatively affect the environment, comply with applicable laws, regulations, and other environmental requirements, and continually improve in these areas.

Benefits of certification

- ❖ Improved environmental performance
- ❖ Legal and regulatory compliance
- ❖ Reduced waste and energy consumption
- ❖ Better reputation and credibility with customers and stakeholders
- ❖ Potential cost savings
- ❖ Competitive advantage in bids and tenders

Road Map for ISO 14001 Consultancy Service

- **Gap Assessment:** Existing system against ISO 14001 requirements, Compliance with legal requirements, Pollution prevention, Identify Environmental Aspects & Impacts, Set Objectives & Targets
- **Training:** Train employees on EMS policies, roles, and responsibilities.
