

ISO 17025:2017 is an international standard that specifies the general requirements for the competence, impartiality, and consistent operation of testing and calibration laboratories. It is used by laboratories to demonstrate that they operate competently and generate valid results, enhancing confidence in their work.

Benefits of Accreditation:

- ❖ International recognition,
- ❖ Improving customer trust & market acceptance,
- ❖ Time and money efficient,
- ❖ Enhanced customer confidence and satisfaction,
- ❖ Robust Quality Management System,
- ❖ Continual improvements & better operational control,
- ❖ Ensuring reliable and accurate testing,
- ❖ Cost Reduction
- ❖ Enhancing regulatory compliance
- ❖ Prevent loss due to defects
- ❖ Supporting international trade with recognized testing standards.

Management Requirements

- Focuses on the quality management system (similar to ISO 9001), including document control, corrective actions, and customer communication.

Technical Requirements

- Covers factors affecting the accuracy and reliability of test/calibration results, such as staff competence, equipment, method validation, and measurement uncertainty.
