

ISO 22000 Food Safety Management System

ISO 22000:2018 is a food safety management system (FSMS) standard that ensures food safety throughout the supply chain.

ISO22000 is an international standard that helps organizations manage food safety. It's used by food businesses of all sizes to ensure food safety from farm to table.

Benefits of certification

❖ Enhanced Food Safety & Hygiene

- Ensures strict compliance with international food safety standards
- Reduces risks of foodborne illnesses, protecting guests and staff

❖ Improved Customer Trust & Reputation

- Guests feel confident about food safety, leading to positive reviews and repeat business.
- Gives a competitive edge

❖ Compliance with Legal & Regulatory Requirements

- Helps meet local & global food safety laws, reduces the risk of legal issues or penalties related to food safety violations.

❖ Efficient Operations & Waste Reduction

- Standardized processes, reduces food wastage & operational inefficiencies, improves supply chain management

❖ Increased Staff Awareness & Training

- Promotes a culture of continuous improvement in hygiene standards.

❖ Business Growth & Market Expansion

- Facilitates partnerships with international travel agencies and corporate clients who prefer certified resorts/hotels/food manufacturers.

Road Map for ISO 22000 Consultancy Service
